## **Packaging the Clothing:**

Each child should receive their own package. Be sure to tape a copy of the child's profile on the outside of your package or use a "Fed Ex Plastic Sleeve" attached to the front of the package (slip the child's profile slipped inside the plastic sleeve with name visible). Some ideas for packaging include a duffel bag, laundry basket, or stacking plastic carton. These items can be used by the children and are very helpful for delivering and transporting the package.
